

Astronomy in the Park

Hundreds of people came out to star gaze, play games, make crafts, hear presentations and view a slide show at the inaugural Astronomy in the Park event Aug. 13 at Porpoise Bay Provincial Park from 3 p.m. to midnight.

1. Ed Hanlon of the Sunshine Coast Astronomy Club adjusts his telescope.
2. The craft table was busy with astronomy buffs.
3. A display showed various stars and planets as viewed through a

5. Kids and parents mapped out the planets seen from the park.

6. Rob Palmer looks through Brian Morse's telescope.

7. Those at the event looked through various models of telescopes and gazed at the sun through sun viewers.
